

SCHOOL NURSE

Cindy Krings

As school nurse at North Cedar Academy, Cindy Krings takes great pride in being part of the NCA community. She grew up in Ladysmith, graduated from Ladysmith High School and raised her family here. In Cindy's words, "Ladysmith is a wonderful community and the Wisconsin seasons bring a world of adventures to all who reside here or visit. Ladysmith is home to me."

Cindy graduated from Viterbo College in LaCrosse, Wisconsin with a Bachelor's Degree in Nursing. She furthered her education by receiving her Master's Degree in Professional Education from the University of LaCrosse. During the course of her nursing career she has worked in public health nursing, home care nursing, hospitals, emergency rooms and as a school nurse. Further, Cindy has been appointed to many local committees related to health care needs, including the Ladysmith High School committee for developing the Health Care Academy in the Ladysmith School District. Presently, she is an instructor for the Wisconsin Indianhead Technical College and teaches Certified Nursing Assistant classes as well as American Heart Association CPR.

Cindy believes if students are healthy they will excel and do better in school. She says "we as educators must be vigilant in assessing their needs physically, socially, and emotionally. My goal as a school nurse is to assist, recognize, and follow up as needed with the student population of NCA. As a nurse I treat the students at NCA as if they were my own in meeting their health care needs."

In Cindy's spare time she enjoys being with her family. She has one daughter and one son who is married with two daughters of his own. Both of her children live an hour away from Ladysmith so she is able to see them often, which she loves. "Friends are important and we enjoy golfing, kayaking, and traveling. I love to garden, read and take in the Wisconsin four seasons."
